Art Unit: 2815

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Li 2003/0156315 in view of Kato '997.

Li shows all the structure claimed including a mirror, beam, bonding pad (anchor) and comb teeth, except the plurality of trenches. This difference is not patentable because Kato shows trenches are desirable for reducing the moment of inertia without appreciably reducing the rigidity of the mirror structure. See Kato paragraphs [0022] and [0023].

A series of singular dependent claims is permissible in which a dependent claim refers to a preceding claim which, in turn, refers to another preceding claim.

A claim which depends from a dependent claim should not be separated by any claim which does not also depend from said dependent claim. It should be kept in mind that a dependent claim may refer to any preceding independent claim. In general, applicant's sequence will not be changed. See MPEP § 608.01(n).

Claim 4 is objected to because of the following informalities: it does not refer back to a preceding claim but rather refers "forward". Appropriate correction is required. It should be canceled and rewritten, to be renumbered.

Art Unit: 2815

Claims 4-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 19, 20, 22-33 are allowable over the art of record.

Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection.
